

Brickfactor is an e-Business systems integrator, implementation partner and solutions consultancy.

brickfactor

Our Strategy is to partner with companies that enhance e-commerce capabilities and positively impact the customer experience.

Brickfactor has successfully implemented partner solutions for over 50 top e-commerce brands and multi-channel retailers, since its establishment in 2006.

Our Partners benefit from our excellent track record, pro-active approach and reputation for innovation.

"Brickfactor consistently delivers a high standard of Mercado implementation to our clients"

R. Traube , VP Worldwide Sales, Mercado

Implementation Services

Brickfactor's prestigious reputation is founded upon its mastery in delivering projects on time, in scope, and within budget.

Our ability to execute is combined with responsive communications.

This enable Brickfactor to create project management implementation processes for its technology partners and provide successful outcomes executing on existing partner processes.

Systems Integration

Brickfactor employs only the best and brightest talent. We continue to invest in our people, knowledge and skills to deliver as our partners' needs evolve.

Our **knowledge areas** include on-site search and merchandising, service resolution management; content outsourcing, web analytics and mobile commerce.
